

## A FIRE SAFETY DAY AT FERDO VESEL PRIMARY SCHOOL

source: <http://firesafekids.org/safety.html>

It was Thursday morning on 22nd September 2016. We had false alarm earlier at school, that is why we went to the playground and then we waited to see six fire departments. When they came, they checked out the school to be sure that nothing burns. Later they prepared everything for the competition. The competition was held in two categories. The first ones were pioneers and the second ones were juveniles. After the competition there was a proclamation of the winner. The first place went to Šentvid pri Stični, the second place to Dob pri Šentvidu and the third place went to Radohova vas. After that the firefighters showed us their equipment, then we had lunch and later we went home full of positive impressions.
